Greetings

인사말

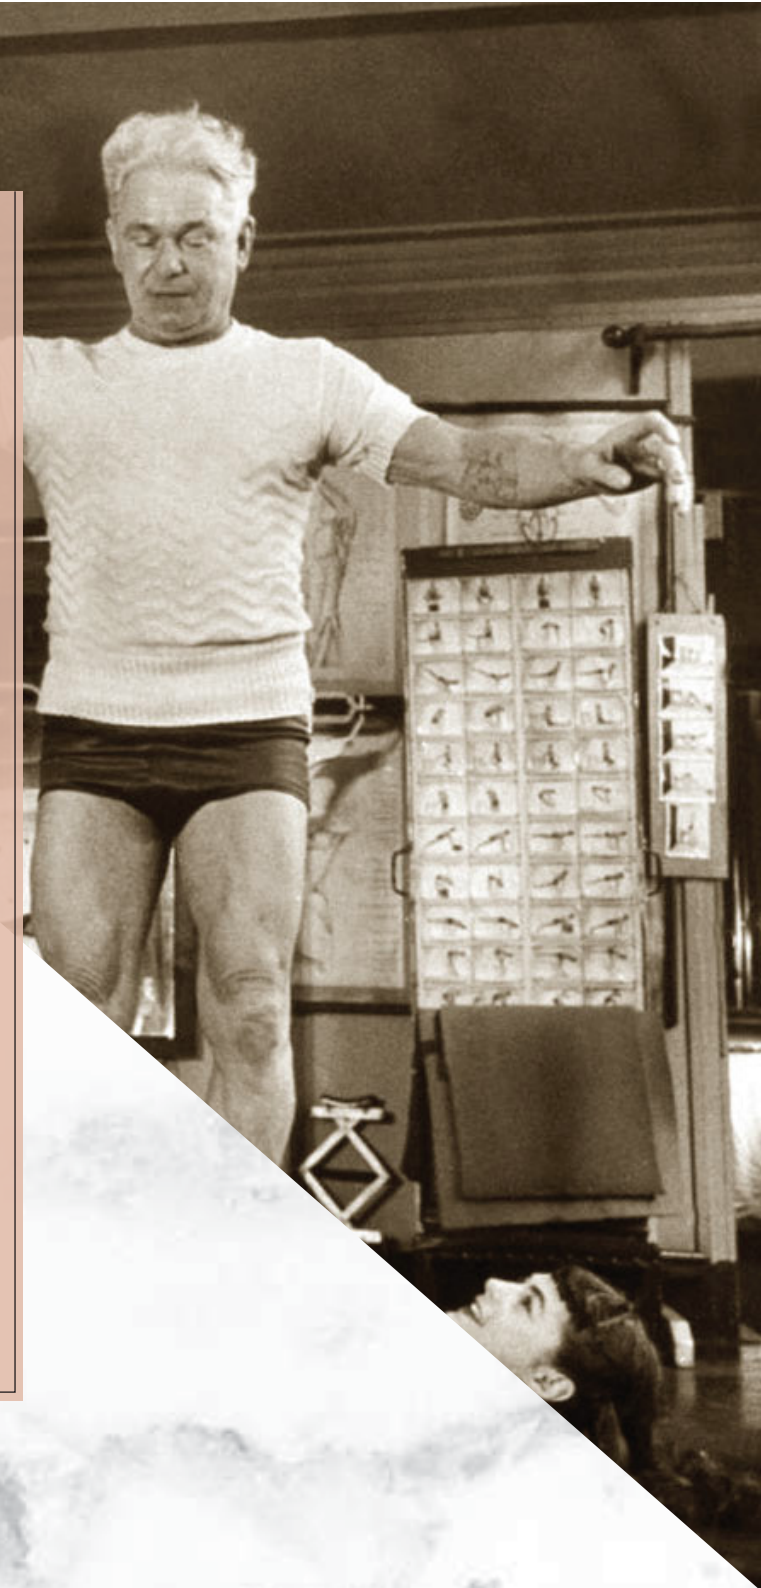

intoPilates Co., Ltd aims to manufacture more basic Pilates apparatus through a custom-made production system. We are working hard to make the best Pilates apparatus paying careful attention to from the selection of wood and to the very small bolt. Because of our Pilates apparatus, Pilates has been already gradually proliferating not only as a rehabilitation exercise but also as training in Korea. However, in order to become truly popular, it true that some factors are needed to support and improve. AS expensive imported apparatus also attributes to the hindrance of Pilates growth, intoPilates is aiming to contribute to the popularization of Pilates by the smooth supply of apparatus. Since it is a challenging product that to produce without craftsmanship, we produce products with a flat-out effort in every process and provide continuous A/S for customer satisfaction.

We are the first company in Korea to manufacture only Pilates apparatus and manufacture and manage all products directly.

CEO 이명곤

Management philosophy

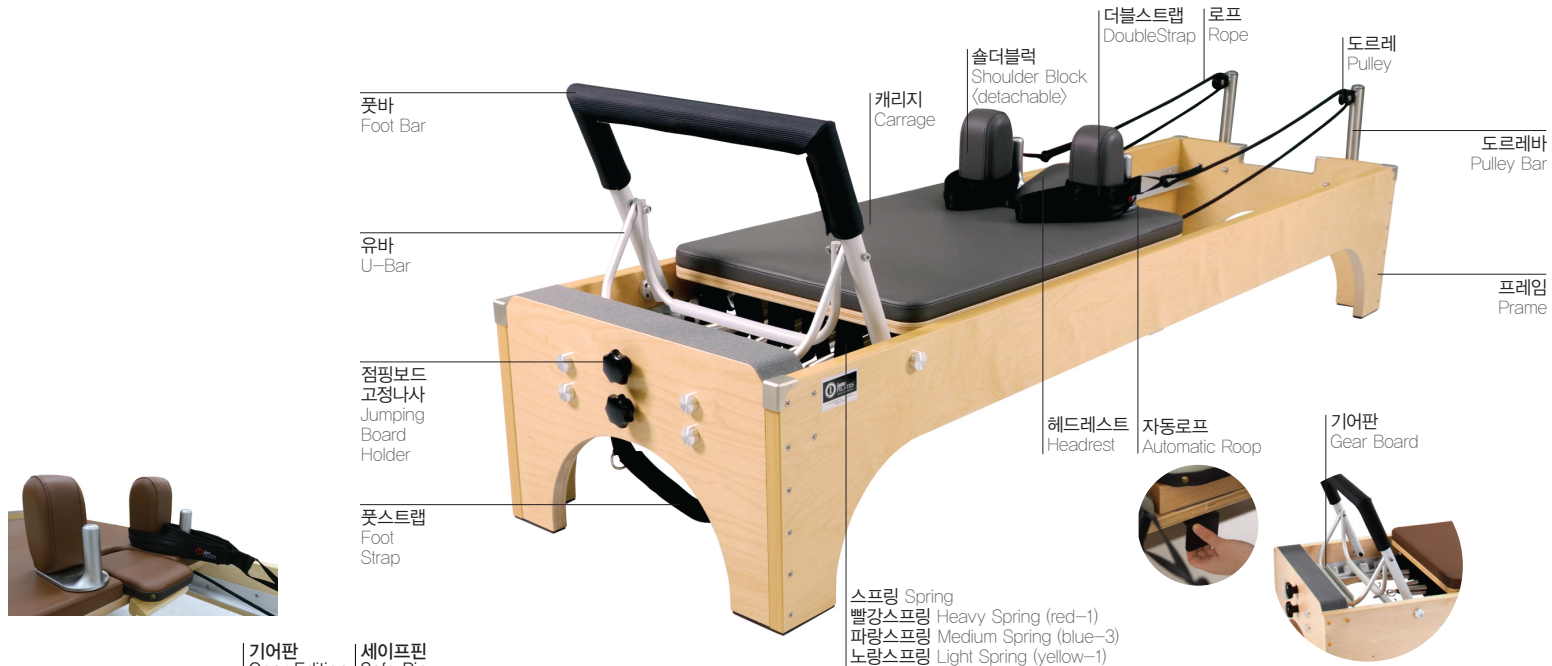

- Customer-oriented management
- Quality-first management
- Efficient management

■ Modern Reformer
- L 2310 X W 660 X H 400 MM

The Modern Reformer is a device developed with a modern sense to enable more exercises by applying modern medical knowledge and kinematics to the Reformer of Joseph Pilates. It is most famous among Pilates apparatus and is called Pilates flower because it allows more than 100 exercises with this one apparatus.

Control for Custom

기어판 Gear Edition
기어바 Gear Bar
세이프핀 Safe Pin

According to spring combination, you can control 15 level of intensity to exercise. You can adjust it according to your body and sports ability and do high level of motions more effectively and easier.

Using Reformer

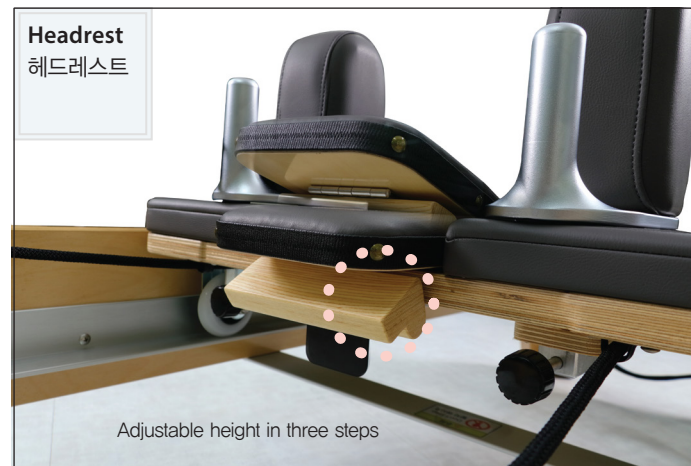

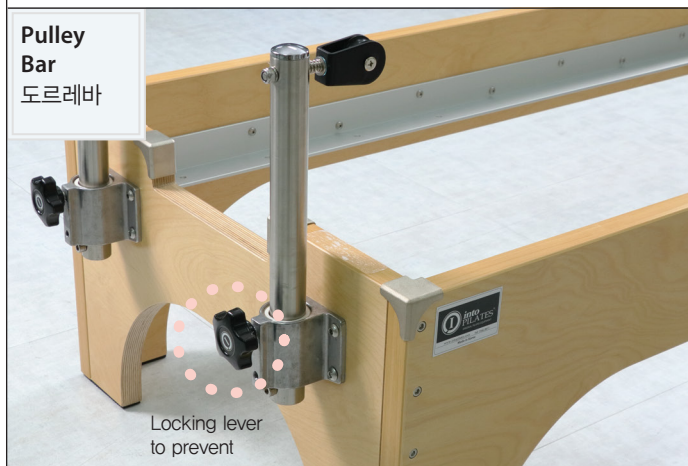

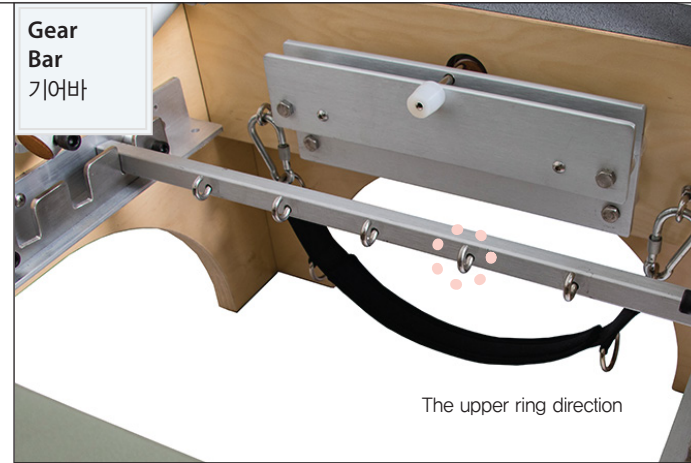

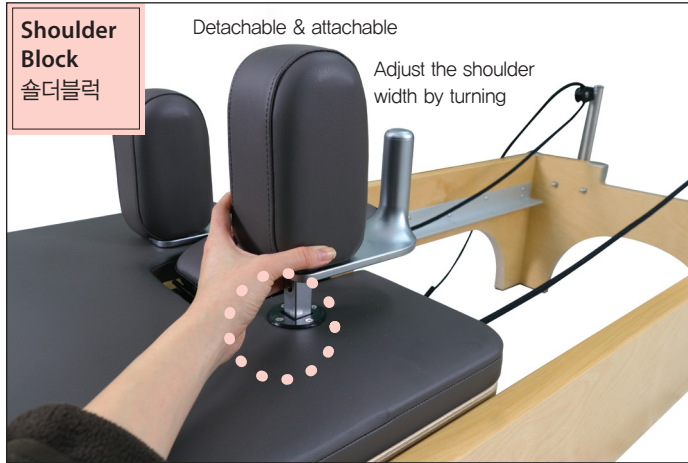

With the help of the Reformer, well-balanced workouts on the mat are possible and, and it is also used for rehabilitation exercises or for balancing the spine and muscles. It has become a valuable exercise and treatment apparatus in Pilates studio, chiropractic, physical therapist, osteopathic doctor, and rehabilitation clinic. The appearance of apparatus may seem strange and challenging, but unrestrained, natural breathing, and moderate power control help you maximize limb control, coordination of movement, and cognitive abilities.

■ Function : You can adjust according to your body and athletic ability and can make high-level motion efficiently and easily.

3 Step Gear

15 Step Spring Set

5 Step Footbar

3 Step Headrest

You can fine-tune the distance spring strength between the carriage and the foot bar by changing gears to match your body size and movement.

The spring has hard 1, medium 3, and weak 1, and spring combinations provide the adjustment of 15 strength levels.

5 levels foot bar can be adjusted according to exercise method and physical condition.

You can easily change the headrest in three levels to get a more comfortable posture during the carriage exercise.
